

INSTRUCTION MANUAL

Designation	Pouch for CO Metre® or CO Metre® Pro
Reference	9937

POUCH FOR CO METRE et CO METRE PRO**Composition**

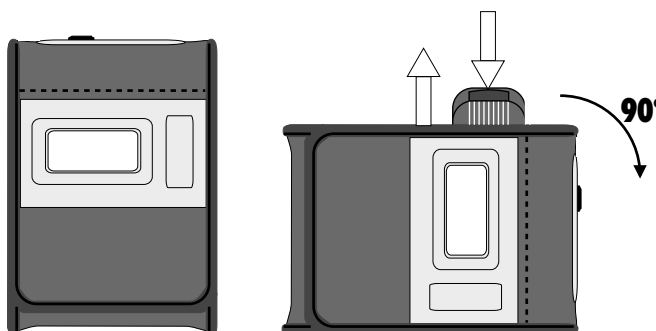

This pouch is dedicated exclusively to the family CO METRE ® and CO METRE ® PRO models 99XX. This pouch contains the following items:

- A leather pouch
- A rotating clip fitting on belt.

Functioning

The pouch allows to carry a CO Metre® or CO Metre® Pro on the belt.

The rotary clip for belt has a double system of safety to avoid losing the device. Indeed, it is necessary to turn the pouch of 90 ° with regard to the clip and to press on the top button to be able to put or remove the pouch.

The transparent window allows to read the LCD screen and to use the possible buttons of command without removing the device from the pouch.

The ON OFF button is accessible without removing the device from the pouch.

Thanks to a hole in front of the charging connector (at the bottom of the device), it is possible to connect the cigarette lighter charger on board a car without removing the device from the pouch.

Thanks to a large superior opening, it is possible to see the alarm LED in case of use in noisy environment.

Recommendations

Never to polish the pouch, notably with some shoe polish containing silicone.

Carry the pouch on belt as often as possible to transport your CO Metre® or CO Metre® Pro. Indeed the transport in a suitcase, a bag could expose your device to a chemical poisoning if you transport also contaminants products and notably objects containing some silicone.

Confinement in closed space with contaminating compound could damage the sensor.

Guarantee

The terms of the guarantee are similar to those of the CO Metre® or CO Metre® Pro.
